PALETTE → COLORSCHEME

```
final scheme = ColorScheme.fromSeed(  
  seedColor: const Color(0xFF2B825D), // primary  
  brightness: Brightness.light,  
);
```

Dark mode: N/A

Contrast, checked

Text on Background	9.3 : 1	Pass
Text on Surface	11.0 : 1	Pass
onPrimary (white) on Primary	4.7 : 1	Pass
Muted caption text on Background	2.6 : 1	Caption-only

ROLE TABLE

	primary #2B825D	Main buttons, active nav state
	onPrimary #FFFFFF	Text & icons on primary
	secondary #FCA1C2	Hearts, folder tiles, highlights
	surface #FFFFFF	Cards, sheets, inputs
	onSurface #4A3644	Body text
	error #D65A6E	Validation, destructive actions

TYPE SCALE → TEXTTHEME

```
textTheme: const TextTheme(  
  headlineLarge: TextStyle(fontSize: 40, fontFamily: 'Caveat', fontWeight: FontWeight.bold), // Display  
  headlineSmall: TextStyle(fontSize: 20, fontWeight: FontWeight.bold), // Heading  
  bodyMedium: TextStyle(fontSize: 16, fontWeight: FontWeight.w600), // Body  
  labelLarge: TextStyle(fontSize: 11.5, fontWeight: FontWeight.bold, letterSpacing: 1.2), // Label  
  labelSmall: TextStyle(fontSize: 13, fontWeight: FontWeight.w500), // Caption  
);
```

Text('On this day!', style: Theme.of(context).textTheme.headlineLarge)

YOUR STYLE	FLUTTER SLOT	SIZE	WEIGHT	USED FOR
Display	headlineLarge	40sp	Bold (700)	Hero greeting — “On this day!”
Heading	headlineSmall	20sp	Bold (700)	Card & section titles
Body	bodyMedium	16sp	SemiBold (600)	Normal text, dates
Label	labelLarge	11.5sp	Bold (700)	Uppercase field labels
Caption	labelSmall	13sp	Medium (500)	Timestamps, item counts

SPACING → CONSTANTS

```
class AppSpacing {
  static const double xs = 4;    // tight
  static const double sm = 8;    // standard
  static const double md = 16;   // card padding
  static const double lg = 24;   // screen edge
}
```

padding: `const EdgeInsets.all(AppSpacing.md)`

DECISIONS

Base unit	8px
Screen edge padding	24px
Gap between list items	12px
Gap between sections	32px

DRAWN TO SCALE

COMPONENTS → FILES

COMPONENT	FILE	CONSTRUCTOR PARAMETERS	APPEARS ON
AppSearchField	lib/widgets/app_search_field.dart	String hintText, ValueChanged<String>? onChanged	Today
AvatarStack	lib/widgets/avatar_stack.dart	List<String> avatarUrls, VoidCallback onFavoriteTap	Today
AppButton	lib/widgets/app_button.dart	String label, VoidCallback? onPressed, AppButtonStyle style	Create Account, Couple Dates
LabeledTextField	lib/widgets/labeled_text_field.dart	String label, TextEditingController controller, bool obscureText	Create Account, Settings
MemoryCard	lib/widgets/memory_card.dart	Memory memory, VoidCallback onFavoriteTap	Today, On This Day (expanded)
CollectionFolderTile	lib/widgets/collection_folder_tile.dart	String title, int itemCount, VoidCallback onTap	Today
PolaroidPhoto	lib/widgets/polaroid_photo.dart	String imageUrl, String caption	Couple Date Detail, On This Day (expanded)
StickyNoteTag	lib/widgets/sticky_note_tag.dart	String text	Couple Date Detail
AppBottomNav	lib/widgets/app_bottom_nav.dart	int currentIndex, ValueChanged<int> onTap	Every screen

WHAT CHANGED, AND WHY

ELEMENT	PRELIM SAID	NOW SAYS	WHY IT CHANGED
Type scale	Named steps (Display/Heading/Body/Caption), no Flutter mapping	Mapped to TextTheme slots (headlineLarge, bodyMedium, etc.)	Needed to reference styles by name in widgets, not by literal fontSize
Components	Sketches only, no file paths or parameters	9 components with file path + constructor signature	A component you can't name the parameters of is still a drawing
